What does Pangiam do?

Keyboards to Surfboards

Where and When was Pangiam founded?

- Founded in 2020 with the acquisition of veriScan™, Linkware, TrueFace
- Headquartered in McLean, VA (30km from Washington, DC)
- Offices:
 - London
 - Los Angeles
 - St. Augustine, FL (my home!)
- Globally focused:
 - NAM
 - LAC
 - EMEA
 - APAC
- US (less than 12 months)
 - Airports: LAX, LGA, JFK, EWR, DFW, IAH, HOU, SEA, DTW
 - 40+ Airlines on our platform
 - Preclearance: four sites in progress

Why Pangiam?

- Multi-stakeholder environment requires multi-disciplinary capability
- Depth in the Air Transport Industry
- Cloud-based
 - Standard internet
 - Eliminate requirement for dedicated circuits
- Hardware and Software agnostic
 - COTS Hardware: iOS or Android
 - Utilize existing infrastructure investments
 - Integrate with third party software
- Core competencies – integration with 3rd party solutions
 - Integrated with 40+ airline DCS
- “Scalability at Speed”
 - 1:1000 as quickly as 1:10,000,000
 - Less complicated deployment, maintenance and support
- **Data processor and/or Data owner**
